

Announcement for a GIS/Data Intern

ECF is looking for a motivated GIS/Data Intern to join its team in Brussels.

About the European Cyclists' Federation (ECF)

- We are the single European umbrella federation of member-based **civil society organisations** advocating and working for **more and better cycling**.
- We promote cycling as a **sustainable** and **healthy** means of transport and leisure.
- With more than 60 member organisations from over 40 countries, we harness the power of **European cycling movements** as the only voice at the pan-European level.
- We are based in Brussels and our roots are in Europe, but the challenges we face are global, and we are ready to meet them as the **world's largest and best-known** cyclists' advocacy organisation.

Internship description

The main task of the intern will be to assist with finding, reviewing and summarising available national data across different EU countries on:

- cycling networks (cycle infrastructure, cycle routes),
- cycle usage data (cycling mode share, counting data),
- road safety data.

The intern will also have the opportunity to experience wider policy and project work at ECF.

What do we offer?

You will have a place in Europe's and the world's largest pro-cycling federation to promote cycling as the healthiest, most climate-friendly and efficient means of transport and leisure. This internship offers a unique chance to learn and grow within an organisation that is making a significant impact.

Your internship will be based in an office located in the heart of Brussels, surrounded by friendly, passionate, and international colleagues. We provide comprehensive training throughout your internship, ensuring you develop valuable skills and gain extensive knowledge in the field.

We offer a **full-time, 6-month internship** paid €1,035 monthly. This is a professional internship agreement, according to Belgian law, called *Convention d'immersion professionnelle* (FR) or *Beroepsinlevingsovereenkomst* (NL). It includes a clear description of the tasks and the expected competences acquired by the end of the internship.

Candidates must be eligible to work in the EU (European Union) and able to live and work in Belgium during their internship. The candidate must be able to start **in February 2025**.

EUROPEAN CYCLISTS' FEDERATION

Who are we looking for?

We expect the candidates to:

- have a basic understanding of cycle infrastructure terminology,
- be able to open and understand the structure of GIS datasets in different formats (for example: ESRI shapefiles, geopackages, geoJSON, CSV),
- have a good command of spoken and written English,
- be able to use machine translation to find information on a website or in a document in a foreign language,
- be organised.

How to apply?

Please send a CV and a cover letter in English (maximum one page) in one PDF file to hr@ecf.com with the subject line "*First Name Last Name – GIS/Data Intern*" **by 18 January 2025**.

Interviews will be conducted **online** on a rolling basis until we find a suitable candidate. We encourage you to apply right away if you think you are a good fit for the role. The interviews will consist of **two parts**:

- **A technical exercise** of approximately **one hour**, which we will use to determine a candidate's technical familiarity with GIS datasets.
- **A traditional 30-minute interview** to inquire further about a candidate's experience and qualifications, and to determine whether a candidate is a good fit for ECF.

Due to the high number of applications expected, only shortlisted candidates will be contacted.

Equal Opportunity

ECF is an equal opportunity employer and encourages applications from all qualified candidates irrespective of race and ethnicity, opinions or beliefs, sex, gender, sexual orientation, health, or disabilities.
